STROBE Statement—checklist of items that should be included in reports of observational studies

Section/item	Item No	Recommendation	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract	1	(a) Indicate the study's design with a commonly used term in the title or the abstract	Page 1/Line 31	Abstract/Paragraph 2
		(b) Provide in the abstract an informative and balanced summary of what was done and what was found	Page 2/Line 39-49	Abstract/Paragraph 3
Introduction				
Background/ rationale	2	Explain the scientific background and rationale for the investigation being reported	Page 2/Line 60-80	Introduction/Paragraph 1
Objectives	3	State specific objectives, including any prespecified hypotheses	Page 3/Line 81-87	Introduction/Paragraph 2
Methods				
Study design	4	Present key elements of study design early in the paper	Page 3/Line 93-98	Methods/Paragraph 1
Setting	5	Describe the setting, locations, and relevant dates, including periods of recruitment, exposure, follow-up, and data collection	Page 4/Line 102-116	Methods/Paragraph 2
Participants	6	(a) ***Cohort study***—Give the eligibility criteria, and the sources and methods of selection of participants. Describe methods of follow-up ***Case-control study***—Give the eligibility criteria, and the sources and methods of case ascertainment and control selection. Give the rationale for the choice of cases and controls ***Cross-sectional study***—Give the eligibility criteria, and the sources and methods of selection of participants	Page 4/Line 119-122	Methods/Paragraph 3
		(b) ***Cohort study***—For matched studies, give matching criteria and number of exposed and unexposed ***Case-control study***—For matched studies, give matching criteria and the number of controls per case	Page 4/Line 123-128	Methods/Paragraph 4
Variables	7	Clearly define all outcomes, exposures, predictors, potential confounders, and effect modifiers. Give diagnostic criteria, if applicable	Page5/Line136-168	Methods/Paragraph 6-12
Data sources/ measurement	8*	For each variable of interest, give sources of data and details of methods of assessment (measurement). Describe comparability of assessment methods if there is more than one group	Page6/Line172-Page8/Line237	Methods/Paragraph13-30
Bias	9	Describe any efforts to address potential sources of bias	Page 8/Line 241-243	Methods/Paragraph31
Study size	10	Explain how the study size was arrived at	Page 8/Line 247-248	Methods/Paragraph 32
Quantitative variables	11	Explain how quantitative variables were handled in the analyses. If applicable, describe which groupings were chosen and why	Page 8/Line 252-257	Methods/Paragraph 33

Statistical methods	12	(a) Describe all statistical methods, including those used to control for confounding	Page8/Line261-266	Methods/Paragraph 34
		(b) Describe any methods used to examine subgroups and interactions	Page 8/Line 267-Page9/274	Methods/Paragraph 35
		(c) Explain how missing data were addressed	Page 9/Line 275-279	Methods/Paragraph 36
		(d) ***Cohort study***—If applicable, explain how loss to follow-up was addressed ***Case-control study***—If applicable, explain how matching of cases and controls was addressed ***Cross-sectional study***—If applicable, describe analytical methods taking account of sampling strategy	Page 9/Line 280-281	Methods/Paragraph 37
		(e) Describe any sensitivity analyses	Page 9/Line 282-283	Methods/Paragraph 37
Results				
Participants	13*	(a) Report numbers of individuals at each stage of study—eg numbers potentially eligible, examined for eligibility, confirmed eligible, included in the study, completing follow-up, and analysed	Page 4/Line 120-123	Methods/Paragraph 3
		(b) Give reasons for non-participation at each stage	Page 9/Line 288-291	Results/Paragraph 1
		(c) Consider use of a flow diagram	Page 9/Line 292	Results/Paragraph 2
Descriptive data	14*	(a) Give characteristics of study participants (eg demographic, clinical, social) and information on exposures and potential confounders	Page 9/Line 296-297	Results/Paragraph 3
		(b) Indicate number of participants with missing data for each variable of interest	Page 9/Line 297-298	Results/Paragraph 3
		(c) ***Cohort study***—Summarise follow-up time (eg, average and total amount)	Page 9/Line 299-300	Results/Paragraph 4
Outcome data	15*	***Cohort study***—Report numbers of outcome events or summary measures over time	Page9/Line304-Page10/Line310	Results/Paragraph 5
		Case-control study—Report numbers in each exposure category, or summary measures of exposure	N/A,not case control study	N/A
		Cross-sectional study—Report numbers of outcome events or summary measures	N/A,not cross sectional study	N/A
Main results	16	(a) Give unadjusted estimates and, if applicable, confounder-adjusted estimates and their precision (eg, 95% confidence interval). Make clear which confounders were adjusted for and why they were included	Page 10/Line 311-318	Results/Paragraph 6
		(b) Report category boundaries when continuous variables were categorized	Page 10/Line 319-321	Results/Paragraph 7
		(c) If relevant, consider translating estimates of relative risk into absolute risk for a meaningful time period	Page10/Line322-Page11/Line341	Results/Paragraph 8
Other analyses	17	Report other analyses done—eg analyses of subgroups and interactions, and sensitivity analyses	Page 11/Line 343-344	Results/Paragaph 9
Discussion				
Key results	18	Summarise key results with reference to study objectives	Page11/Line350-364	Discussion/Paragraph 1
Limitations	19	Discuss limitations of the study, taking into account sources of potential bias or imprecision. Discuss both direction and magnitude of any potential bias	Page 11/Line 368-371	Discussion/Paragraph 2

Interpretation	20	Give a cautious overall interpretation of results considering objectives, limitations, multiplicity of analyses, results from similar studies, and other relevant evidence	Page12/Line375-Page16/Line531	Discussion/Paragraph3-12
Generalisability	21	Discuss the generalisability (external validity) of the study results	Page16/Line535-542	Discussion/Paragraph13
Other information				
Funding	22	Give the source of funding and the role of the funders for the present study and, if applicable, for the original study on which the present article is based	N/A	N/A

*Give information separately for cases and controls in case-control studies and, if applicable, for exposed and unexposed groups in cohort and cross-sectional studies.

Note: An Explanation and Elaboration article discusses each checklist item and gives methodological background and published examples of transparent reporting. The STROBE checklist is best used in conjunction with this article (freely available on the Web sites of PLoS Medicine at http://www.plosmedicine.org/, Annals of Internal Medicine at http://www.annals.org/, and Epidemiology at http://www.epidem.com/). Information on the STROBE Initiative is available at www.strobe-statement.org.
