TRIPOD Checklist: Prediction Model Development and Validation

Section	Item		Checklist description	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract					
Title	1	D;V	Identify the study as developing and/or validating a multivariable prediction model, the target population, and the outcome to be predicted.	page1, line3-5	title
Abstract	2	D;V	Provide a summary of objectives, study design, setting, participants, sample size, predictors, outcome, statistical analysis, results, and conclusions.	page1, line31-33；page 2, line34-54	Abstract paragraph 1
Introduction					
Background and objectives	3a	D;V	Explain the medical context (including whether diagnostic or prognostic) and rationale for developing or validating the multivariable prediction model, including references to existing models.	page2, line63-66；page 3, line67-84	Introduction paragraph 1
	3b	D;V	Specify the objectives, including whether the study describes the development or validation of the model or both.	page3, line85-88	Introduction paragraph 2
Methods					
Source of data	4a	D;V	Describe the study design or source of data (e.g., randomized trial, cohort, or registry data), separately for the development and validation data sets, ifapplicable.	page3, line94-100；page4, line101-114	Methods, paragraph 1
	4b	D;V	Specify the key study dates, including start of accrual; end of accrual; and, if applicable, end of follow-up.	N/A	It's not in the manuscript
Participants	5a	D;V	Specify key elements of the study setting (e.g., primary care, secondary care, general population) including number and location of centres.	N/A	This requirement was not required for this study
	5b	D;V	Describe eligibility criteria for participants.	page3, line94-96	Methods, paragraph 1
	5c	D;V	Give details of treatments received, if relevant.	NA	This requirement was not
Outcome	6a	D;V	Clearly define the outcome that is predicted by the prediction model, including how and when assessed.	page6, line193-201；page7, line202	Methods, paragraph 7
	6b	D;V	Report any actions to blind assessment of the outcome to be predicted.	NA	It's not in the manuscript
Predictors	7a	D;V	Clearly define all predictors used in developing or validating the multivariable prediction model, including how and when they were measured.	page4, line117-118	Methods, paragraph 2
	7b	D;V	Report any actions to blind assessment of predictors for the outcome and other predictors.	NA	It's not in the manuscript
Sample size	8	D;V	Explain how the study size was arrived at.	page6, line193-201；page7, line202	Methods, paragraph 5

Missing data	9	D;V	Describe how missing data were handled (e.g., complete-case analysis, single imputation, multiple imputation) with details of any imputation method.	NA	There are no missing data in this study.
Statistical analysis methods	10a	D	Describe how predictors were handled in the analyses.	page6, line204-222	Methods, paragraph 6
	10b	D	Specify type of model, all model-building procedures (including any predictor selection), and method for internal validation.	page8, line236-246	Results, paragraph 8
	10c	V	For validation, describe how the predictions were calculated.	page6, line178-191	Methods, paragraph 5
	10d	D;V	Specify all measures used to assess model performance and, if relevant, to compare multiple models.	8, line260-268 ; page8 , line269-279	Methods, paragraph
	10e	V	Describe any model updating (e.g., recalibration) arising from the validation, if done.	page9, line281-301 ; page10, line302-312	Methods, paragraph 11
Risk groups	11	D;V	Provide details on how risk groups were created, if done.	page6, line204-222	Methods, paragraph 6,
Development vs. validation	12	V	For validation, identify any differences from the development data in setting, eligibility criteria, outcome, and predictors.	NA	There are no missing data in this study
Results					
Participants	13a	D;V	Describe the flow of participants through the study, including the number of participants with and without the outcome and, if applicable, a summary of the follow-up time. A diagram may be helpful.	NA	There are no missing data in this study.
	13b	D;V	Describe the characteristics of the participants (basic demographics, clinical features, available predictors), including the number of participants with missing data for predictors and outcome.	NA	This requirement was not required for this study.
	13c	V	For validation, show a comparison with the development data of the distribution of important variables (demographics, predictors and outcome).	NA	This requirement was not required for this study
Model development	14a	D	Specify the number of participants and outcome events in each analysis.	NA	This requirement was not
	14b	D	If done, report the unadjusted association between each candidate predictor and outcome.	page11, line348-365	Results, paragraph 3
Model specification	15a	D	Present the full prediction model to allow predictions for individuals (i.e., all regression coefficients, and model intercept or baseline survival at a given time point).	page12, line394-402 ; page13, line403-423	Results, paragraph 5
	15b	D	Explain how to the use the prediction model.	page12, line394-402 ; page13, line403-423	Methods, paragraph 5
Model performance	16	D;V	Report performance measures (with CIs) for the prediction model.	page12, line394-402 ; page13, line403-423	Methods, paragraph 5
Model-updating	17	V	If done, report the results from any model updating (i.e., model specification, model performance).	NA	We did not do this job.
Discussion					
Limitations	18	D;V	Discuss any limitations of the study (such as nonrepresentative sample, few events per predictor, missing data).	page16, line529-537 ; page17, line538-541	Discussion, pragragh6

Interpretation	19a	V	For validation, discuss the results with reference to performance in the development data, and any other validation data.	page15, line470-477	Results, paragraph 8
	19b	D;V	Give an overall interpretation of the results, considering objectives, limitations, and results from similar studies, and other relevant evidence.	page16, line529-537；page17, line538-541	Discussion
Implications	20	D;V	Discuss the potential clinical use of the model and implications for future research.	page15, line495-503；page16, line504-506	Discussion, paragraph 2-5
Other information					
Supplementary information	21	D;V	Provide information about the availability of supplementary resources, such as study protocol, Web calculator, and data sets.	NA	All data comes from public data.
Funding	22	D;V	Give the source of funding and the role of the funders for the present study.	page17, line544-546	Acknowledgments,pragrag

* Items relevant only to the development of a prediction model are denoted by D, items relating solely to a validation of a prediction model are denoted by V, and items relating to both are denoted D;V. We recommend using the TRIPOD Checklist in conjunction with the TRIPOD Explanation and Elaboration document.
