

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/gc-20-671	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The detection rates, total number of SLNs and number of positive SLNs in particular will be shared, which can be compared to previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the new research results may emerge over time.
7	To whom will you share the data?	Medical oncologists and breast surgeons who are interested in studies of ICG and MB.
8	For what type of analysis or purpose?	For analysis to evaluate the sensitivity and efficacy between ICG and MB in breast cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wzh320wq@163.com .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
