

## Data Sharing Statement

<b>Article Info</b>	Available at <a href="http://dx.doi.org/10.21037/gs-20-456">http://dx.doi.org/10.21037/gs-20-456</a> .	
<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The baseline data in particular will be shared, and we also found a higher diagnostic value by VABB in high-risk and malignant lesions, which has seldom been provided in previous studies
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent form and clinical pictures of integrated VABB procedure will also be shared if requested.
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years within the publication date, since the technique or accuracy data may be updated over time.
7	To whom will you share the data?	Medical oncologists and breast surgeons who are interested in studies of VABB.
8	For what type of analysis or purpose?	For analysis to evaluate the clinical value of VABB in calcifications of breast cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: <a href="mailto:jupingshen@163.com">jupingshen@163.com</a> .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
