

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/gc-20-699	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We agree to share the clinicopathological data of the patients involved in this study with others.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or the relevant data may be updated over time.
7	To whom will you share the data?	Medical oncologists and thyroid surgeons who are interested in studies of papillary thyroid carcinoma.
8	For what type of analysis or purpose?	To evaluate the need for prophylactic central compartment lymph node dissection in patients with cN0 papillary thyroid carcinoma coexistent with Hashimoto's thyroiditis.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 110026803@qq.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
