

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/gs-20-485.	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Ki67LI obtained by CNBS could be more reliable when combined with the SUVmax of tumors obtained by FDG PET/CT, which has seldom been provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plans will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Breast surgeons.
8	For what type of analysis or purpose?	For analysis to reduce the discordance of Ki67LI between core needle biopsy and surgically resected specimen.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: nakajiji0830@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
