

| Data Sharing Statement |  |  |
|------------------------|--|--|
| <b>Article Info</b>    | http://dx.doi.org/10.21037/atm-19-4790   |  |
| <b>Item</b>            | <b>Question</b>  | <b>Authors' Response<br/>(place "-" if not applicable)</b>   |
| 1                      | Would you like to share data collected for your study to others?   | Yes  |
| 2                      | If not, would you like to share the reason for your decision?  | -  |
| 3                      | What data in particular will be shared?  | Since there were no multivariable or univariable analyses, we were willing to share the survival data.                                   |
| 4                      | Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.                            |
| 5                      | When will data availability begin?   | From the publication date.   |
| 6                      | When will data availability end?   | Two years within the publication date, since the technique or survival date may be updated over time.                                    |
| 7                      | To whom will you share the data?   | Radiation oncologists, medical oncologists and sinonasal surgeons who are interested in studies of ONB.                                  |
| 8                      | For what type of analysis or purpose?  | For analysis to evaluate the efficacy of particle radiotherapy in ONB.   |
| 9                      | How or where can the data/documents be obtained?   | Emails could be sent to the address below to obtain the shared data:<br><a href="mailto:weixu.hu@sphic.org.cn">weixu.hu@sphic.org.cn</a> |
| 10                     | Any other restrictions?  | We may balance the potential benefits and risks for each request and then provide the data that could be shared.                         |
