

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-4469	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All in vitro experiments related to Transwell assay, wound healing assay, cell-counting-kit 8 assay could be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We could also share the analytic code of TCGA mRNA expression and clinicopathologic data.
5	When will data availability begin?	From the publication data.
6	When will data availability end?	One years within the publication date, since the technique or public date may be updated over time.
7	To whom will you share the data?	Medical oncologists and thyroid surgeons who are interested in our research.
8	For what type of analysis or purpose?	Further analysis of TCGA database or to obtain the details of in vitro experiments.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: mingxuwhuh@outlook.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
