

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-4574	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, we would like to share data collected from our study to others.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data about overall survival of lung adenocarcinoma patients, correlation between METTL7B expression and clinicopathological characteristics and differential expression of METTL7B in cancerous and lung tissues can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Serum sample data for ELISA, statistical analysis plan, informed consent form, MDAR check list.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	It can always be shared.
7	To whom will you share the data?	Medical oncologist, Lung cancer specialist and all other researchers who are interested in this study.
8	For what type of analysis or purpose?	To further evaluate the role of METTL7B and its potential use in clinical grounds.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wqdlmu@163.com
10	Any other restrictions?	We may assess each request and compare the potential benefits and risks and accordingly provide the data that could be shared.
