

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-3345	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Neural network architecture and hyperparameters.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, codes to build and train the neural network can be shared upon request.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique and the outcoming result will be updated over time.
7	To whom will you share the data?	AI researchers in the medical imaging field.
8	For what type of analysis or purpose?	For testing clinic results with individual data, improving the performance of the next generation AI systems.
9	How or where can the data/documents be obtained?	Contact the correspondence author by email.
10	Any other restrictions?	JHU may request institutional Data Transfer Agreement for data sharing. Patient data will require additional JHU IRB approval.
