

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-5669">http://dx.doi.org/10.21037/atm-20-5669</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared, and we also found a correlation between the time from VABB to open surgery with DFS in the residual group, which has seldom been provided in previous studies
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	1 years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical and scientific researchers interested in cardiovascular disease research.
8	For what type of analysis or purpose?	An analysis used to evaluate the safety of Fan in myocardial ischemic injury.
9	How or where can the data/documents be obtained?	Emails could be sent to <a href="mailto:xinxiangchw@163.com">xinxiangchw@163.com</a> .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
