

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-6157">http://dx.doi.org/10.21037/atm-20-6157</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	YES
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Related data of Morris water maze behavioral test in particular will be shared. We also found that PK11195 alone did not have a significant effect on normal brain learning and memory behavior, which was rarely mentioned in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, preparation of intervention drugs will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical neuroscientists and biologists interested in neurocognition.
8	For what type of analysis or purpose?	To evaluate or compare the behavior performance of cognitive impairment
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: yooyen@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared
