

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-2215	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, we can share the data collected for study with others.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Experimental methods and study results will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	
5	When will data availability begin?	Available from the day article is published.
6	When will data availability end?	Available for two years after the article is published.
7	To whom will you share the data?	Orthopedic surgeons
8	For what type of analysis or purpose?	After total knee arthroplasty (TKA) surgery, blood collected in hemovac was studied and analyzed. Mesenchymal stem cells were identified in hemovac blood and compared to bone marrow. We believe that hemovac blood after total knee arthroplasty could be as a source of stem cells.
9	How or where can the data/documents be obtained?	If you request data, we can provide it.
10	Any other restrictions?	n/a
