

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/atm-20-3466	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Whole exome sequencing fastq data will be shared in particular, and genomic sequencing can help genetically identify targeted therapy candidates for PRCC2. This was rarely provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date.
6	When will data availability end?	-
7	To whom will you share the data?	Medical oncologist and bioinformatics interested in PRCC2 research.
8	For what type of analysis or purpose?	Analysis to identify candidates for targeted therapy using genomic information from PRCC2 patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: seminlee@unist.ac.kr
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
