

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/mhealth-20-125	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Data from the quantitative survey and in-depth interviews will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent forms, analytic code.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Five years within publication date, since we only have capacity to store that long. However, the quantitative data is also stored on the USAID Development Data Library beyond five years.
7	To whom will you share the data?	Researchers conducting similar studies or focused on HIV in West Africa
8	For what type of analysis or purpose?	For analysis to understand opportunities for mHealth interventions with MSM in Togo.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: <a href="mailto:ndola@berkeley.edu">ndola@berkeley.edu</a> Or they can be accessed through USAID Development Data Library <a href="https://data.usaid.gov/">https://data.usaid.gov/</a>
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
