

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/cdt-20-399	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The combination of serum TIMP-3, CA125 and NT-proBNP can improve the sensitivity and specificity of predicting ventricular remodeling, and helps in the early prevention and treatment of heart failure.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	None
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and Cardiology surgeons who are interested in this study.
8	For what type of analysis or purpose?	Investigate the value of serum TIMP-3, CA125 and NT-proBNP in predicting ventricular remodeling in patients with heart failure after AMI.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data:wuhb929@163.com
10	Any other restrictions?	None
