## <u>Materials Design Analysis Reporting (MDAR)</u> Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: doi:10.31222/osf.io/9sm4x.). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

### **Materials**

Antibodies	Yes (indicate where provided: section/paragraph)	n/a
For commercial reagents, provide supplier		N/A
name, catalogue number and RRID, if available.		
Cell materials	Yes (indicate where provided: section/paragraph)	n/a
Cell lines: Provide species information, strain.	res (mulcate where provided, section/paragraph)	N/A
Provide accession number in repository <b>OR</b>		IN/F
supplier name, catalog number, clone number,		
OR RRID		
Primary cultures: Provide species, strain, sex of		N/A
origin, genetic modification status.		
5 75		
Experimental animals	Yes (indicate where provided: section/paragraph)	n/a
Laboratory animals: Provide species, strain, sex, age,		N/A
genetic modification status. Provide accession		
number in repository <b>OR</b> supplier name, catalog		
number, clone number, <b>OR</b> RRID		
Animal observed in or captured from the		N/A
field: Provide species, sex and age where		
possible		
Model organisms: Provide Accession number		N/A
in repository (where relevant) <b>OR</b> RRID		
Plants and microbes	Yes (indicate where provided: section/paragraph)	n/a
Plants: provide species and strain, unique accession	res (maleate where provided, section, paragraph)	N/A
number if available, and source (including location		111/7
· · · · · · · · · · · · · · · · · · ·		
for collected wild specimens)		
Microbes: provide species and strain, unique		N/A
accession number if available, and source		
Human research participants	Yes (indicate where provided: section/paragraph)	n/a
		N/A
Identify authority granting ethics approval (IRB or		IN/F
Identify authority granting ethics approval (IRB or equivalent committee(s), provide reference number		IN/F

2

N/A

N/A

Provide statement confirming informed consent

Report on age and sex for all study participants.

obtained from study participants.

### **Design**

Study protocol	Yes (indicate where provided: section/paragraph)	n/a
For clinical trials, provide the trial registration	the (manage street production of the street production)	N/A
number <b>OR</b> cite DOI in manuscript.		IN/A
Hamber On the Borni manascript.		
Laboratory protocol	Yes (indicate where provided: section/paragraph)	n/a
Provide DOI or other citation details if detailed step-		N/A
by-step protocols are available.		
Experimental study design (statistics details)	Yes (indicate where provided: section/paragraph)	n/a
State whether and how the following have been	(manage and pressure and pressu	N/A
done, <b>or</b> if they were not carried out.		
Sample size determination		N/A
Randomisation		N/A
Blinding		N/A
Inclusion/exclusion criteria		N/A
Sample definition and in-laboratory replication	Mar Callindary and the Land Carrest Conference of the Carrest Conferen	
State number of times the experiment was	Yes (indicate where provided: section/paragraph)	n/a N/A
replicated in laboratory		IN/A
Define whether data describe technical or biological		N/A
replicates		IN/A
replicates	<u></u>	
Ethics	Yes (indicate where provided: section/paragraph)	n/a
Studies involving human participants: State details of		N/A
authority granting ethics approval (IRB or equivalent		
committee(s), provide reference number for		
approval.		
Studies involving experimental animals: State details		N/A
of authority granting ethics approval (IRB or		
equivalent committee(s), provide reference number		
for approval.		
Studies involving specimen and field samples: State if		N/A
Studies involving specimen and field samples: State if relevant permits obtained, provide details of		N/A
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required,		N/A
Studies involving specimen and field samples: State if relevant permits obtained, provide details of		N/A
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required,	Yes (indicate where provided: section/paragraph)	N/A
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.	Yes (indicate where provided: section/paragraph)	n/a
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.  Dual Use Research of Concern (DURC)	Yes (indicate where provided: section/paragraph)	n/a

# **Analysis**

Attrition	Yes (indicate where provided: section/paragraph)	n/a
State if sample or data point from the analysis is		N/A
excluded, and whether the criteria for exclusion were		
determined and specified in advance.		

Statistics	Yes (indicate where provided: section/paragraph)	
Describe statistical tests used and justify choice of	method/ Statistical analysis	
tests.		

Data Availability	Yes (indicate where provided: section/paragraph)	n/a
State whether newly created datasets are available,		N/A
including protocols for access or restriction on		
access.		
If data are publicly available, provide accession	Method/ RNA-Seq data	
number in repository or DOI or URL.	·	
If publicly available data are reused, provide	Method/ RNA-Seq data	
accession number in repository or DOI or URL, where		
possible.		

Code Availability	Yes (indicate where provided: section/paragraph)	n/a
For all newly generated code and software essential	Method	
for replicating the main findings of the study:		
State whether the code or software is available.	Method	
If code is publicly available, provide accession	Method	
number in repository, or DOI or URL.		

# Reporting

Adherence to community standards	Yes (indicate where provided: section/paragraph)	n/a
MDAR framework recommends adoption of		N/A
discipline-specific guidelines, established and		
endorsed through community initiatives. Journals		
have their own policy about requiring specific		
guidelines and recommendations to complement		
MDAR.		
State if relevant guidelines (eg., ICMJE, MIBBI,		N/A
ARRIVE) have been followed, and whether a checklist		
(eg., CONSORT, PRISMA, ARRIVE) is provided with		
the manuscript.
