

Data Sharing Statement		
Article information	http://dx.doi.org/10.21037/apm-20-926	
Section	Question	Authors' Response (place "-" if not applicable)
Data collected for your study	Will the data collected for your study be made available to others?	Yes.
	If not, would you like to share the reason for your decision?	-
	What data in particular will be shared?	The sample size, clinical and therapeutic characteristics of the patients (including Figure 1 and 2 in the paper), results of pleural effusion examination, admixture method of our povidone-iodine sclerosant, relevant incidences, and follow-up results in our research.
	Any additional information about data?	No.
	How or where can the data be obtained?	The data can be obtained only by communicating with the author by Email.
	When will data availability begin?	The data availability will begin at 3 months later after this paper published.
	When will data availability end?	The data availability will end at 15 months later after this paper published.
Supporting documents	Will any supporting documents be available?	No.
	Which supporting documents?	-
	Any additional information about supporting documents?	-
	How or where can supporting documents be obtained?	-
	When will supporting documents availability begin?	-
	When will supporting documents availability end?	-

Restrictions	To whom will data be available?	Medical researchers.
	For what type of analysis or purpose?	For researches relevant with medicine.
	By what mechanism?	By the restriction of the way for obtaining data.
	Any other restrictions?	No.
Additional information		None.
