

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/apm-20-301">http://dx.doi.org/10.21037/apm-20-301</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place “-” if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Survival rate, index of oxidative stress, trace element mass and other essential data can be provided if requested.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan and other documents can be provided if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Hepatological/neurological scientists who are interested in studies of Wilson disease.
8	For what type of analysis or purpose?	For further research of palliative, translational and alternative therapy in Wilson disease patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: azychengnan@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
