

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/apm-20-1208">http://dx.doi.org/10.21037/apm-20-1208</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The database of the study will be shared. We found a low CPR prevalence of less than 5% in cancer patients in palliative situation at the end of life.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	The data availability will end two years after publication date.
7	To whom will you share the data?	We would like to share the study data with interested scientists in the research field of end of life care.
8	For what type of analysis or purpose?	For descriptive analyses on the CPR prevalence of cancer patients at the end of life.
9	How or where can the data/documents be obtained?	E-mails could be sent to: <a href="mailto:burkhard.dasch@uk-muenster.de">burkhard.dasch@uk-muenster.de</a> or <a href="mailto:burkhardsch@web.de">burkhardsch@web.de</a>
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
