

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/tcr-20-1714	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The TOP50 upregulated genes and the TOP50 downregulated genes in particular will be shared, which is helpful to further reveal the molecular mechanism of Lnc00675 influence on acute myeloid leukemia.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and detailed bioinformatics analysis methods will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the bioinformatics technique may be updated over time.
7	To whom will you share the data?	Medical oncologists and hematology doctors who are interested in studies of acute myeloid leukemia.
8	For what type of analysis or purpose?	For analysis of the molecular mechanism of Lnc00675 influence on acute myeloid leukemia.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: hur@sj-hospital.org
10	Any other restrictions?	-
