

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/TCR-20-1992	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The cell viability in particular will be shared, and We also found that limonin inhibits angiogenesis and metastasis of human breast cancer cells by inhibiting VEGFR2/IGFR1-mediated STAT3 signal pathway, which has seldom been provided in previous studies
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, materials and study protocol will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or study protocol may be updated over time.
7	To whom will you share the data?	Medical oncologists and breast surgeons interested in limonin research.
8	For what type of analysis or purpose?	For analysis to evaluate the effectiveness of limonin in breast cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: chenjing1979@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
