

Data Sharing Statement

Article Info	Article information: http://dx.doi.org/10.21037/lcm-20-2	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Transcriptome-wide microarray profiles of neuroglia T98G cells incubated with test samples: datasets of genes expression - fold changes and chipster data.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	n/a
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication
7	To whom will you share the data?	To curious experts who are interested in studies and will provide evidence that they have similar publications in the field.
8	For what type of analysis or purpose?	For recalculation and verification of the results obtained in this study.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: ap@phytomed.se
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
