

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/gpm-21-48	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The baseline data will be shared, including the result of HPV, biopsy, and CDR3s diversity.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or follow-up data may be updated over time.
7	To whom will you share the data?	Researchers in gynecology and immunology, who are interested in cervical lesion and CDR3s.
8	For what type of analysis or purpose?	For analysis to evaluate the value of CDR3s in patients with CIN or hr-HPV infection.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: tangdan1880@163.com and nccmmyy@163.com .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
