

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/gs-23-493	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data of hub gene expression levels will be shared, which can be compared to previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and study protocol will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the new research results may emerge over time.
7	To whom will you share the data?	Breast surgeons who are interested in studies of the postoperative fat transplantation of breast cancer.
8	For what type of analysis or purpose?	For analysis to be used as a reference for further study.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wzh320wq@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
