

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/gs-23-376	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Individual participant data that underlie the results reported in this article, after deidentification.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists and thyroid surgeons who are interested in studies of skip metastasis.
8	For what type of analysis or purpose?	For analysis to evaluate risk factors of skip metastasis in papillary thyroid carcinoma.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: elvirazhao@126.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
