

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/gs-24-44	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We are particularly willing to share the relevant data on constructing the cell model for anoikis resistance in ATC.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, especially the process of establishing the anoikis resistance model in ATC will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists who are interested in the study of ATC.
8	For what type of analysis or purpose?	It can be further utilized for the study of anoikis resistance in ATC.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: yuzhang1619@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
