

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/gc-24-124	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Patients' data of QTI analysis and histopathological data will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Any researcher who wishes to do so for research purposes can receive our data by requesting it from the corresponding author.
8	For what type of analysis or purpose?	Only for research purpose
9	How or where can the data/documents be obtained?	The datasets generated during and/or analyzed during the current study are available from the corresponding author on reasonable request. Hyejin_baek@gnu.ac.kr
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
