

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/gc-24-190">https://dx.doi.org/10.21037/gc-24-190</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The postoperative serum calcium level and incidence of early hypocalcaemia between the placebo and intervention group.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Informed consent form and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	5 years within the publication date or until new evidence published.
7	To whom will you share the data?	Endocrine surgeons and general surgeons who are involved in patient care in total thyroidectomy.
8	For what type of analysis or purpose?	For analysis to evaluate the role of prophylactic calcium infusion in reducing early hypocalcaemia post total thyroidectomy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: kahseng901209@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
