

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/gc-24-379">https://dx.doi.org/10.21037/gc-24-379</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The preoperative MRI scoring system for prediction of axillary nodal burden in clinically node negative breast cancer patients.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the MRI technique may be updated over time.
7	To whom will you share the data?	Radiologists and breast surgeons who are interested in studies of MRI lymph nodes in breast cancer patients.
8	For what type of analysis or purpose?	To establish MRI scoring system in preoperative evaluation of axillary nodal burden in clinically node negative breast cancer patients.
9	How or where can the data/documents be obtained?	Email could be sent to the address below to obtain the shared data: Somchanin.p@chula.ac.th
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
