

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/gS-24-445	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	The datasets generated and/or analyzed during the current study are not publicly available due to participant information privacy, but some relevant data that does not involve the privacy of subjects may be available from the corresponding author on reasonable request.
3	What data in particular will be shared?	Some relevant data that does not involve the privacy of subjects
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We would like to share the following documents, including study protocol, statistical analysis plan, analytic code, etc.
5	When will data availability begin?	After the manuscript was officially published
6	When will data availability end?	Within one year after the manuscript was officially published
7	To whom will you share the data?	We are willing to share data with peers
8	For what type of analysis or purpose?	Relevant professional field
9	How or where can the data/documents be obtained?	The datasets generated in this study are available from the corresponding author on reasonable request.
10	Any other restrictions?	We will assess the potential risk of each data sharing request and then provide a limited amount of data sharing
