

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/gs-20-534 .	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	This is possible to the extent permitted by research ethics.
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	Requested data must be evaluated separately by the corresponding author.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Available
5	When will data availability begin?	This is possible when the article is published.
6	When will data availability end?	This is possible as long as the data is preserved.
7	To whom will you share the data?	It can be shared with researchers working for the same purpose. Of course, its adequacy must be evaluated by the corresponding author.
8	For what type of analysis or purpose?	It can be shared with researchers working for the same purpose. Of course, its adequacy must be evaluated by the corresponding author.
9	How or where can the data/documents be obtained?	You can ask the corresponding author.
10	Any other restrictions?	Limited in cases of violation of research ethics and in cases where the purpose is not clear. Of course, its adequacy must be evaluated by the corresponding author.
