

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/gc-21-149">https://dx.doi.org/10.21037/gc-21-149</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data of preoperative characteristics, postoperative complications, and drainage duration will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, informed consent form, and clinical study report will also be shared if requested
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Plastic surgeons and breast surgeons who are interested in this study.
8	For what type of analysis or purpose?	For analysis to evaluate the differences in complications depending on the types of acellular dermal matrix in implant-based breast reconstruction
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: usj1011@snu.ac.kr
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared
