<u>Materials Design Analysis Reporting (MDAR)</u> Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: doi:10.31222/osf.io/9sm4x.). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

Materials

Antibodies	Yes (indicate where provided: section/paragraph)	n/a
For commercial reagents, provide supplier	Methods / paragraph 5	
name, catalogue number and RRID, if available.		

Cell materials	Yes (indicate where provided: section/paragraph)	n/a
Cell lines: Provide species information, strain. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID	Methods /paragraph 2	
Primary cultures: Provide species, strain, sex of origin, genetic modification status.	Methods / paragraph 2,3	

Experimental animals	Yes (indicate where provided: section/paragraph)	n/a
Laboratory animals: Provide species, strain, sex, age, genetic modification status. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID	Not related	N/A
Animal observed in or captured from the field: Provide species, sex and age where possible	Not related	N/A
Model organisms: Provide Accession number in repository (where relevant) OR RRID	Not related	N/A

Plants and microbes	Yes (indicate where provided: section/paragraph)	n/a
Plants: provide species and strain, unique accession number if available, and source (including location for collected wild specimens)	Not related	N/A
Microbes: provide species and strain, unique accession number if available, and source	Not related	N/A

Human research participants	Yes (indicate where provided: section/paragraph)	n/a
Identify authority granting ethics approval (IRB or	This work was financially supported by the Beijing	N/A
equivalent committee(s), provide reference number	Science and Nature Fund (grant No. 7172057), ethical	
for approval.	proof pictures are available.	
Provide statement confirming informed consent obtained from study participants.	Methods/ paragraph 1	
Report on age and sex for all study participants.	Not related	N/A

<u>Design</u>

Study protocol	Yes (indicate where provided: section/paragraph)	n/a
For clinical trials, provide the trial registration number OR cite DOI in manuscript.	Not related	N/A
Laboratory protocol	Yes (indicate where provided: section/paragraph)	n/a
Provide DOI or other citation details if detailed step- by-step protocols are available.	Materials and methods in this article	
Experimental study design (statistics details)	Yes (indicate where provided: section/paragraph)	n/a
State whether and how the following have been done, or if they were not carried out.		
Sample size determination	Not related	N/A
Randomisation	Not related	N/A
Blinding	Not related	N/A
Inclusion/exclusion criteria	Not related	N/A
Sample definition and in-laboratory replication	Yes (indicate where provided: section/paragraph)	n/a
State number of times the experiment was replicated in laboratory	Methods/ paragraphy4,5,6,7	
Define whether data describe technical or biological replicates	biological replicates	
Ethics	Yes (indicate where provided: section/paragraph)	n/a
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	Methods/ paragraph 1	
Studies involving experimental animals: State details of authority granting ethics approval (IRB or	Not related	N/A
equivalent committee(s), provide reference number for approval.		
	Methods/ paragraph 1	
for approval. Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required,	Methods/ paragraph 1 Yes (indicate where provided: section/paragraph)	n/a

Analysis

Attrition	Yes (indicate where provided: section/paragraph)	n/a
State if sample or data point from the analysis is	Not related	N/A
excluded, and whether the criteria for exclusion were		
determined and specified in advance.		

Statistics	Yes (indicate where provided: section/paragraph)	n/a
Describe statistical tests used and justify choice of	Methods/ paragraph 9	
tests.		

Data Availability	Yes (indicate where provided: section/paragraph)	n/a
State whether newly created datasets are available,	Not related	N/A
including protocols for access or restriction on		
access.		
If data are publicly available, provide accession	Data Sharing Statement	N/A
number in repository or DOI or URL.		
If publicly available data are reused, provide	Data Sharing Statement	N/A
accession number in repository or DOI or URL, where		
possible.		

Code Availability	Yes (indicate where provided: section/paragraph)	n/a
For all newly generated code and software essential		
for replicating the main findings of the study:		
State whether the code or software is available.	Not related	N/A
If code is publicly available, provide accession number in repository, or DOI or URL.	Not related	N/A

Reporting

Adherence to community standards	Yes (indicate where provided: section/paragraph)	n/a
MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR.		
State if relevant guidelines (eg., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (eg., CONSORT, PRISMA, ARRIVE) is provided with the manuscript.	ICMJE guidelines were followed, as the journal follows ICMJE recommendations for publication.
