<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	N/A
3	What data in particular will be shared?	Tabulated data of the animal experiments (vital signs, cervical compartment pressure, cerebral oxygenation, Doppler ultrasound measurement values) can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No other documents will be shared.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years after publication, as the general interest in these "raw experimental data" is limited
7	To whom will you share the data?	Medical colleagues interested in thyroid surgery and other neck surgery.
8	For what type of analysis or purpose?	To gain further insight into the theoretical (animal experimental data) in cervical compartment syndrome due to cervical hemorrhage.
9	How or where can the data/documents be obtained?	The data can be requested from the corresponding author: <a href="mailto:ulrich.wirth@med.uni-muenchen.de">ulrich.wirth@med.uni-muenchen.de</a>
10	Any other restrictions?	Depending on purpose and interest of the requesting medical colleague we will consider the sharing of our raw experimental data or selected parts of it.
