

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/gc-22-170	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The effects data of EN on the nutritional status, postoperative complications, and hospital stay time of patients with PMP will be shared. I found that EN could provide better postoperative nutritional status, less complications, and a shorter postoperative hospital stay for PMP patients. And postoperative EN support for patients with PMP is worth promoting.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Always. But the sample size of this study is small, the conclusion may not be completely accurate.
7	To whom will you share the data?	Medical oncologists and general surgeons who are interested in studies of PMP.
8	For what type of analysis or purpose?	For analysis the effect of postoperative nutritional support in patients with PMP.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhangzhipeng0210@126.com.

10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
