

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/ccco-23-117	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Clinical information, mutation information, and survival data can be shared. The mutation characteristic differences and pathway differences found in this study can be especially shared because there are few such studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan with R package, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the number of patients may accumulate (the analysis can be updated).
7	To whom will you share the data?	Clinicians, oncologists, etc., interested in the precision treatment of patients with colorectal cancer
8	For what type of analysis or purpose?	For analysis to evaluate clinical features and mutation analysis of class 1/2/3 BRAF mutation colorectal cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 13501359939@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
