

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/cco-23-89	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, subject to approval from all authors.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Source dataset used for analysis and modeling can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol, statistical analysis plan, informed consent form, clinical study report and analytic code used in the study are considered confidential.
5	When will data availability begin?	Data will be available upon research article publication.
6	When will data availability end?	Data will remain available as long as the research article is active.
7	To whom will you share the data?	Data can be shared with researchers and collaborators who are interested in the authors' findings.
8	For what type of analysis or purpose?	Shared data can be used for benchmark or extended analysis relevant to the authors' findings.
9	How or where can the data/documents be obtained?	Corresponding authors can be reached out through email to obtain the shared data.
10	Any other restrictions?	Obtained data from the authors cannot be shared without prior consent and approval.
