

## ICMJE DISCLOSURE FORM

Date: 4/23/23  
 Your Name: Nikhil Bush  
 Manuscript Title: Pancreatic Exocrine Insufficiency Guidelines: More Questions than Answers!  
 Manuscript number (if known): \_\_\_\_\_

In the interest of transparency, we ask you to disclose all relationships/activities/interests listed below that are related to the content of your manuscript. "Related" means any relation with for-profit or not-for-profit third parties whose interests may be affected by the content of the manuscript. Disclosure represents a commitment to transparency and does not necessarily indicate a bias. If you are in doubt about whether to list a relationship/activity/interest, it is preferable that you do so.

The following questions apply to the author's relationships/activities/interests as they relate to the current manuscript only.

The author's relationships/activities/interests should be defined broadly. For example, if your manuscript pertains to the epidemiology of hypertension, you should declare all relationships with manufacturers of antihypertensive medication, even if that medication is not mentioned in the manuscript.

In item #1 below, report all support for the work reported in this manuscript without time limit. For all other items, the time frame for disclosure is the past 36 months.

		Name all entities with whom you have this relationship or indicate none (add rows as needed)	Specifications/Comments (e.g., if payments were made to you or to your institution)

**Please summarize the above conflict of interest in the following box:**

Abbvie and Organon both manufacture pancrelipase formulations which are used to treat exocrine pancreatic insufficiency. Vertex manufactures a CFTR modulator that can restore pancreatic exocrine function in some children with cystic fibrosis. The current editorial discusses the UK guidelines on the evaluation and management of exocrine pancreatic insufficiency in broad terms without specific reference to a particular pancrelipase formulation.
