

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/hbsn-21-223	
<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	In particular, the survival data supporting the main inferences of the study will be shared, along with data of the sub-group analysis
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and informed consent forms will also be shared upon request.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Data will be shared to medical oncologists and hepatic surgeons interested in IOERT studies.
8	For what type of analysis or purpose?	For analysis to evaluate the safety and efficacy of IOERT in HCC patients treated with narrow margin (< 1cm) hepatectomy.
9	How or where can the data/documents be obtained?	E-mails could be sent to the below address to obtain the shared data upon reasonable request: <a href="mailto:stewen_wang@sina.com">stewen_wang@sina.com</a> <a href="mailto:chenboo@outlook.com">chenboo@outlook.com</a> <a href="mailto:qinfufeng19@163.com">qinfufeng19@163.com</a> <a href="mailto:dr.wujx@hotmail.com">dr.wujx@hotmail.com</a>
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
