

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/hbsn-21-466">https://dx.doi.org/10.21037/hbsn-21-466</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response</b> (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The treatment efficacy of the TAE-Salvaged ALPPS (the R0 resection rate and hypertrophy of FLR), and treatment safety (the morbidity and 90-day mortality rates). Changes in liver parameters and other short-term outcomes were also shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol, statistical analysis plan, informed consent form, clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Hepatobiliary surgeons who are interested in studies of ALPPS.
8	For what type of analysis or purpose?	For analysis to evaluate the safety and efficacy of TAE-Salvaged ALPPS in liver cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhou.jian@zs-hospital.sh.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
