Manus	cript Title:_ Identification of key genes and pathway related to chemoresistance of small cell lung cancer through
an inte	grative bioinformatics analysis
Manus	cript number (if known):

In the interest of transparency, we ask you to disclose all relationships/activities/interests listed below that are related to the content of your manuscript. "Related" means any relation with for-profit or not-for-profit third parties whose interests may be affected by the content of the manuscript. Disclosure represents a commitment to transparency and does not necessarily indicate a bias. If you are in doubt about whether to list a relationship/activity/interest, it is preferable that you do so.

The following questions apply to the author's relationships/activities/interests as they relate to the <u>current manuscript only</u>.

The author's relationships/activities/interests should be <u>defined broadly</u>. For example, if your manuscript pertains to the epidemiology of hypertension, you should declare all relationships with manufacturers of antihypertensive medication, even if that medication is not mentioned in the manuscript.

		Name all entities with whom you have this relationship or indicate none (add rows as needed)	Specifications/Comments (e.g., if payments were made to you or to your institution)
		Time frame: Since the initial	planning of the work
1	All support for the present manuscript (e.g., funding, provision of study materials, medical writing, article processing charges, etc.)  No time limit for this item.	None	National Natural Science Foundation of China (No. 81902311)  Natural Science Foundation of Guangdong Province (No. 2020A1515011454)  Project of the Featured Clinical Technique of Guangzhou (No. 2019TS28)  Characteristic Innovation Project of Guangdong Universities (Natural Science) (No. 2021KTSCX093)
		Time frame: past	36 months
2	Grants or contracts from any entity (if not indicated in item #1 above).	X _None	
3	Royalties or licenses	X _None	
4	Consulting fees	_ X _None	

5	Payment or honoraria for lectures, presentations, speakers bureaus, manuscript writing or educational events	X _None	
6	Payment for expert testimony	_ X _None	
7	Support for attending meetings and/or travel	_X_None	
8	Patents planned, issued or pending	X _None	
9	Participation on a Data Safety Monitoring Board or Advisory Board	_ X _None	
10	Leadership or fiduciary role in other board, society, committee or advocacy group, paid or unpaid	X_None	
11	Stock or stock options	_ X _None	
12	Receipt of equipment, materials, drugs, medical writing, gifts or other services	_X_None	
13	Other financial or non- financial interests	_ X _None	

The present manuscript was supported by the National Natural Science Foundation of China (No. 81902311), the Natural Science Foundation of Guangdong Province (No. 2020A1515011454), the Project of the Featured Clinical Technique of Guangzhou (No. 2019TS28), and the Characteristic Innovation Project of Guangdong Universities (Natural Science) (No. 2021KTSCX093) since the initial planning of the work. None grants or contracts from any entity, none consulting fees, none payment or honoraria for lectures, presentations, speakers bureaus, manuscript writing or educational events, none payment for expert testimony, none support for attending meetings and/or travel, none patents planned, issued or pending, none participation on a Data Safety Monitoring Board or Advisory Board, none leadership or fiduciary role in other board, society, committee or advocacy group, paid or unpaid, none stock or stock options, none receipt of equipment, materials, drugs, medical writing, gifts or other services, none other financial or non-financial interests in the past 36 months.

an integ	rative bioinformatics analysis
Manusc	ript number (if known):

In the interest of transparency, we ask you to disclose all relationships/activities/interests listed below that are related to the content of your manuscript. "Related" means any relation with for-profit or not-for-profit third parties whose interests may be affected by the content of the manuscript. Disclosure represents a commitment to transparency and does not necessarily indicate a bias. If you are in doubt about whether to list a relationship/activity/interest, it is preferable that you do so.

The following questions apply to the author's relationships/activities/interests as they relate to the <u>current manuscript only</u>.

The author's relationships/activities/interests should be <u>defined broadly</u>. For example, if your manuscript pertains to the epidemiology of hypertension, you should declare all relationships with manufacturers of antihypertensive medication, even if that medication is not mentioned in the manuscript.

		Name all entities with whom you have this relationship or indicate none (add rows as needed)	Specifications/Comments (e.g., if payments were made to you or to your institution)
		Time frame: Since the initial	planning of the work
1	All support for the present manuscript (e.g., funding, provision of study materials, medical writing, article processing charges, etc.)  No time limit for this item.
