

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-4389	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The cell and animal experiments data in particular will be shared which demonstrates that the protective anti-oxidative effects of FGF10 in lung injury are mediated by the stimulation of Nrf2 signaling and inhibition of the NF- κ B pathway.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Scientists who are interested in studies of lung injury.
8	For what type of analysis or purpose?	For analysis to evaluate the mechanism of protective effect of FGF10 in lung injury.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: dongnian@wmu.edu.cn .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
