

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-4813	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The protein expression information detected by LC-MS will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol could be shared if necessary.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the protocol or technique information may be updated over time.
7	To whom will you share the data?	Medical doctors or researchers who are interested in this study.
8	For what type of analysis or purpose?	For analysis to evaluate the effect of waterfall forest aerosol air exposure on body health.
9	How or where can the data/documents be obtained?	Emails could be sent to the corresponding author to obtain the shared data.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
