

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-5772	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The analytical data of this study can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if required.
5	When will data availability begin?	When the article is published online.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Any researchers interested in transcriptome sequencing analysis of the role of β -catenin in F-actin reorganization in embryonic palatal mesenchymal cells.
8	For what type of analysis or purpose?	It can be used to study the Transcriptome sequencing analysis of the role of β -catenin in F-actin reorganization in embryonic palatal mesenchymal cells.
9	How or where can the data/documents be obtained?	By email: leechenghao_cn@yahoo.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
