

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-5816	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Some labeled images of caries lesions and unlabeled images of non-caries can be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique data may be updated over time.
7	To whom will you share the data?	Dentists or medical students who are interested in deep learning of caries.
8	For what type of analysis or purpose?	For analysis to evaluate the deep learning model in the future study.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zangxy301@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
