

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-5467	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Pathological data and Western blotting analysis data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol will be shared if requested.
5	When will data availability begin?	After publication.
6	When will data availability end?	One year after publication.
7	To whom will you share the data?	The readers who are interested in this research.
8	For what type of analysis or purpose?	For discussion of this topic.
9	How or where can the data/documents be obtained?	The request should be sent via email to the corresponding author.
10	Any other restrictions?	We may evaluate the potential benefits and risks for each request and then provide the data that could be shared. The final decision depends on the discussion of all the authors.
