

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-6060	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All experimental results of BTLA detection in the normal group and the tuberculosis group have been seen with the corresponding patient clinical tests.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, informed consent form, clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Clinical researchers engaged in tuberculosis research.
8	For what type of analysis or purpose?	To analyze whether BTLA can be used in the clinical diagnosis of tuberculosis
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: ntjyxff@126.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
