

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-2940	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The 3D reconstruction of placental implantation and its relationship in PPP on MRI will be shared, and we also found the critical values determining severe postpartum hemorrhage, which has seldom been provided in previous studies
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis protocol and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	The surgeons and radiologists who are interested in 3D-MRI and medical image visualization.
8	For what type of analysis or purpose?	To accurately evaluate placental implantation, predict postpartum hemorrhage, and manage IPA combined with placental implantation of different types.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 525793546@qq.com
10	Any other restrictions?	-
