

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-6463	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The overall response rate data in particular will be shared, and the survival data could also be shared when requested.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and gynecological oncologists who are interested in the studies of apatinib in endometrial malignancy.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy and safety of apatinib in patients with endometrial malignancy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: yulan_ren@shca.org.cn
10	Any other restrictions?	We may balance the optional benefits and risks for each request and then provide the data that could be shared.
